## WHO should contribute?

We are seeking perspectives from high-level executives and senior management, system shapers and leaders from across the entire energy ecosystem in your country

| Energy                                                                                                                                                                                                                            |                                                                                           | Energy plus |                                                                                                                                                   |
